

# Cyber and Information Protection Plus

Let's get frank  
about your  
cyber security.

**Frankly, our cyber security coverage is always on, even when you're offline.**

We've got it. You take care of business.

## Exposures

- Employee and customer files
- Laptops and mobile devices

## Threats

- Employee theft
- Improper data collection
- Improper records disposal
- Hacking
- Outdated software

## Risks

- Loss of data and revenue
- Regulatory fines
- Loss of reputation

## What is cyber insurance?

Cyber insurance is a product that protects businesses and individual users from internet- based and information technology risks.

Our Cyber and Information Protection Plus coverage picks up where property and general liability insurance stop.

## What are the main coverage benefits?

- Help a company restore valuable data
- Protect employees private information
- Assist with lost revenue
- Provide defense costs

## Why do you need cyber insurance for your business?

Cyber & information breaches are a very real threat as a business owner.

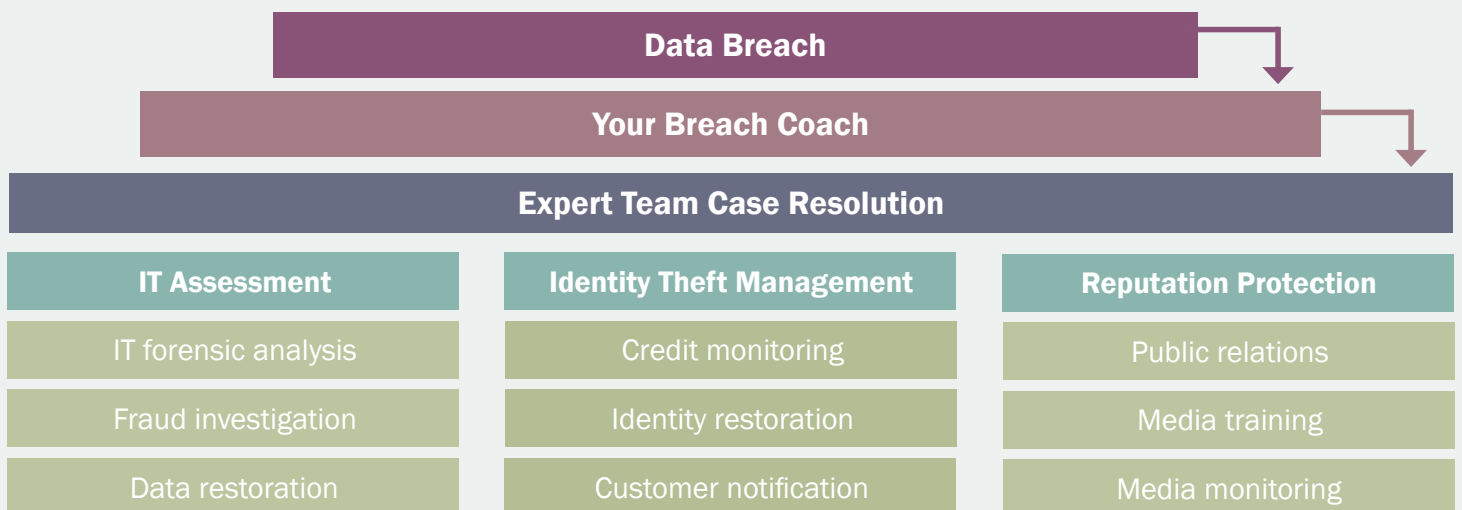

..... By the numbers .....

**62%**  
of incidents target  
small businesses

there are  
**34,529**  
incidents every day

each incident costs  
**\$189,000**  
on average

## What is our process?

Our cyber process is very robust. Contact your independent agent or visit [fmins.com](https://fmins.com) for more info.
