

ACA Print & File

Save time and money while achieving compliance.

With business growth comes increased administrative responsibilities like ensuring that your organization maintains compliance with the Affordable Care Act (ACA). From tracking coverage to employee status and hours worked, it can be time consuming to manage ACA requirements.

Free up your valuable time and resources to focus on other strategic initiatives with isolved ACA Print & File.

ACA Print & File helps you:

Reduce the administrative burden of monitoring deadlines and managing manual processes

- Produce and file applicable 1094 and 1095 forms
- Run draft versions of annual forms on-demand for pre-filing verification
- Capture employee ACA status, benefit eligibility and offers of coverage
- Track aggregate group membership, minimum essential coverage, and minimum value

Free up time and resources with useful tools and reporting

- Identify changes in employee ACA changes and benefit eligibility with look-back reporting
- Calculate your full-time equivalents (FTEs) to determine your applicable large employer (ALE) status

Save money and minimize risk by avoiding penalties and fines through increased compliance

- Keep your organization up to date with greater visibility and access to specific form fields (e.g., indicator codes for employee benefit offer and coverage on the 1095-C, Part II)
- Estimate plan renewal affordability with projection tools

Increase employee engagement and productivity by providing access to affordable health insurance

- Determine if your health benefits are considered affordable based on ACA safe harbors with comprehensive reporting tools
- Produce and deliver employee forms and make them visible to your employees

Let's talk about automating your ACA administration.
