Tired of all the clutter?

Explanation of benefits statements provide key information after you've received service from a health care provider. An EOB includes a description of the service you received, the cost of the service and the amount you may owe, if any. But, these paper statements can pile up quickly. Now, you can sign up to receive email notifications each time a new EOB is available at bcbsm.com to help you keep things organized.

The benefits of going paperless:

- Elimination of paper clutter to help you stay organized
